Experience

Full-stack developer

2025 - 2026

Hospital Universitario Son Espases

- Developed an AI-powered full-stack web application for healthcare professionals using React, Python, MySQL, and Docker.
- Implemented a document ingestion and retrieval system allowing users to upload and query PDF-based knowledge bases.
- Built a role-based access control (RBAC) system to manage secure access to users, bots, and resources.
- Developed an admin dashboard for managing users, permissions, and bot visibility.
- Integrated AI-powered contextual responses based on uploaded clinical and educational documents.
- Collaborated in the design and deployment of scalable backend and database solutions.

Education

2023-2025

Higher Technician in Multiplatform Application Development

CIFP Francesc de Borja Moll

- Java & Python development
- SQL & relational databases
- Web development (HTML, CSS, JavaScript)
- Docker & Git/GitHub
- Linux systems administration
